UNIVERSITY OF WOLVERHAMPTON

MCS COMMITTEE ON THE ETHICS OF RESEARCH
Registration of a Research Project

This form must be completed by the Researcher(s) and, in cases where the applicant is a student, the project Supervisor to determine if the project requires approval by the FSE Research Ethics Committee.

YOUR DETAILS

First Name: Chirag **Surname:** Lama

Student Number: 2434743 **Supervisor:** Ramesh Malasi

Course: Project and Professionalism

Project Title: AI Resume Generator

YOUR PROJECT

State in no more than 100 words the problem(s) your project is aiming to address

Traditional resume creation is slow, error-prone and often incompatible with modern Applicant Tracking Systems (ATS). Many job seekers struggle to produce professional, ATS-friendly resumes that highlight relevant skills, resulting in automatic rejections and reduced employment opportunities. Existing resume builders focus mainly on templates and design but lack AI driven personalization, real time optimization, job matching and meaningful feedback. This gap makes it difficult for graduates, career changers and professionals to create competitive resumes aligned with current hiring practices. The project aims to solve this problem by providing an intelligent system that generates optimized, compliant and personalized resumes.
